DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17 and 22-43 are drawn to a method and system for generating and building an audio package that is stored in an audio database, the audio package has an audio segment containing announcements for playing to an end user in a network, which is classified in class 704, subclass 200 and 201.
 - II. Claims 18-21 are drawn to a method for building a data structure that has a first field for audio segment identifiers and a second field for location of audio segment information, which is classified in class 707, subclass 100, 102 and 103X.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. For example, Group I is drawn to a system and method for generating and building an audio package that is stored in a database as a storage, the audio package has an audio segment containing announcements for playing to an end user in a network, Group II is drawn to a method for generating a data structure that

Art Unit: 2172

has a first field for audio segment identifiers and a second field for location of audio segment information. See MPEP 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicants are advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicants is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CR 1.48(b) and by the fee required under 37 CFR 1.17(i).
